

DESIGNER ACOUSTIC PANELS

ACOUSTICS plays a role in the success of any space, be it a club, restaurant, church, studio or home theatre. With Fonic Acoustics designer panels you can make sure you are getting the best acoustical performance out of your room. Ultrafonic Pty Ltd can supply the products and the advice you need to make sure you are using the right products for the right application.

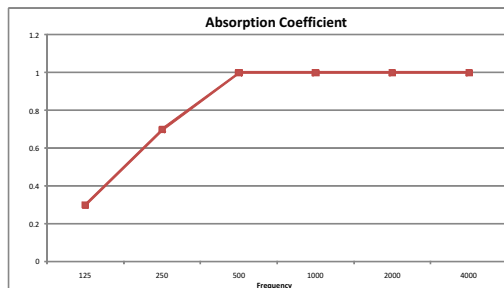

FONIC ACOUSTICS DESIGNER PANELS

Lightweight, high performance and easy to install. They are available in a wide range of fabrics or printed images. The fabrics are laminated to a hard yet acoustically transparent surface to provide optimal acoustic absorption and a durable finish that will stay sag and wrinkle free.

FONIC ACOUSTICS DESIGNER PANEL

TECHNICAL DATA

Fonic Acoustics designer panels are available in standard sizes or can be made to order.

Standard sizes are

1200	x	600	x	50mm
1800	x	900	x	50mm
2400	x	1200	x	50mm

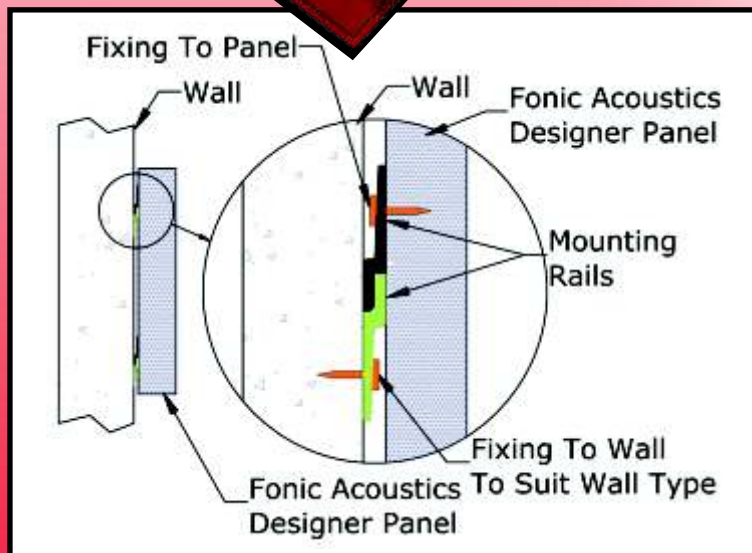

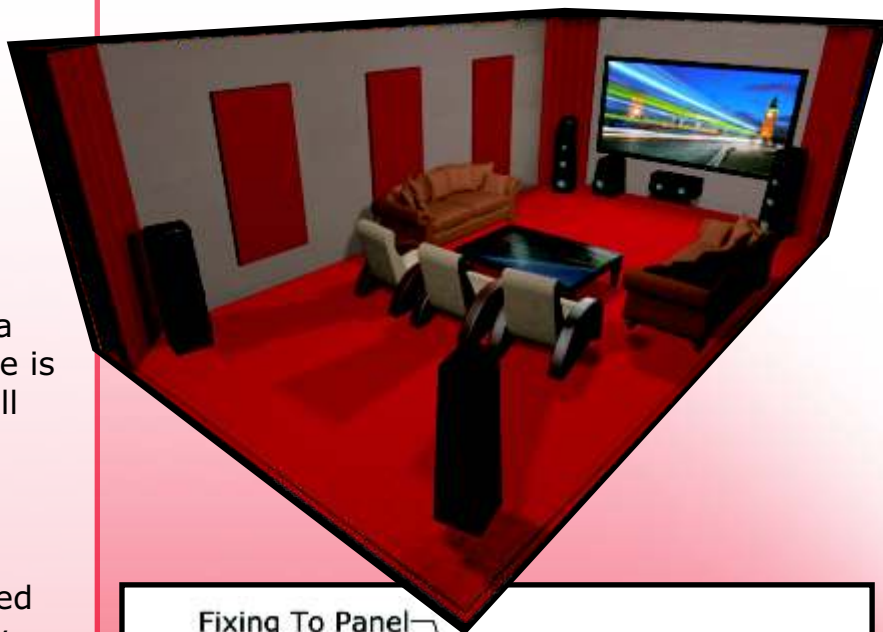

Mounting is as simple as hanging a picture and the mounting hardware is supplied with each panel. (Only wall mounting hardware is supplied, ceiling mounting hardware is not supplied).

A wide range of fabrics can be used as long as the fabric is acoustically transparent and of a reasonable weight (250 to 350 gsm). Most commercial fabric manufacturers have a large selection of usable fabrics.

To Specify

Quantity, Fonic Acoustics designer panel H x W x D, Fabric Supplier, Type, Colour

e.g. 5 Fonic Acoustics designer panels H1800mm x W900mm x D50mm Rim, Trilogy, Indigo
